

## Safe Working Environment/ Safety Representative

**Course developer:**

The Swedish Maritime Joint Work Environment Council (SAN)

**System requirements:**

PC/Mac with Adobe Flash Player v.9.1 installed and Internet connection.

**Estimated time:** 3 hours

**Price:** 229 €

**Overview:**

This course is based on the Maritime Joint Work Environment Council's (SAN) "Work Environment Manual for shipping". This course is divided into 14 parts, each one followed by a questionnaire. This course is intended to provide the knowledge of work environment for all personnel onboard ships and fulfills the requirements for "Safety Representative" as described by the Swedish Work Environment Authority. The course is available in both English and Swedish.

**Learning objectives and learner outcomes:**

Those who successfully complete the course should be able to demonstrate sufficient knowledge to create a safe working environment onboard ships and to act as "Safety Representatives".

**Reference:**

The Swedish Maritime Joint Work Environment Council's (SAN) "Work Environment Manual for shipping".

**Course prerequisites:**

The course is open to all seafarers and to those working ashore in the shipping industry.
